

REMARKS

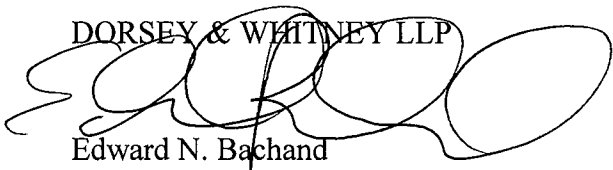

A requested correction to the specification to conform it to the originally filed drawings is submitted herewith for approval by the Examiner in reply to the Notice of Drawing Inconsistency with Specification mailed on September 22, 2009. As noted above, the correct description of Figure 8 has been added and the numbering of Figures 9 and 10 has been corrected.

Corrected drawings are not necessary in reply to the Notice, and therefore are not included with this response.

Should the Examiner believe that these corrections are not proper and that a telephone interview would further the prosecution of this case, the Examiner is requested to contact the undersigned attorney at the phone number below.

Respectfully submitted,
